Named in honor of a pioneering example of Aggie leadership, this annual conference seeks to provide a forum for the exchange of information and experiences regarding the challenges women face in preparing for and pursuing successful technological careers. Discussions are led by dynamic speakers from the Texas A&M community and across the country and designed to inspire the next generation of women leaders in academia, industry, government and beyond.

Women in Science and Engineering (WISE) is an organization of graduate students, faculty, postdoctoral researchers and staff at Texas A&M University and sponsored by College of Arts and Sciences Outreach & Engagement.

Thanks to the Texas A&M Good Bull Fund and the Office of the President for their generous support of this year’s conference.
